## Did you know?

> We ♥ custom! Heartwood has the systems and the experience to build the custom pieces you need... all shipped within our FAST lead times.

The 388 series from Heartwood is built to withstand the demands of today's hectic office environment while still maintaining an attractive, "as new" appearance for many years. All 388 products use 1" thick, mar resistant, premium grade, thermally fused laminate with matching 3 mil thick PVC edges. Metal to metal fittings maintain product

integrity and allow for quick, easy assembly and reconfiguration. The Heartwood team has been manufacturing office furniture products for over 20 years and we guarantee you proven quality and years of trouble free performance. With over 600 components and 18 finishes to choose from, the 388 series is the ultimate solution for today's busy office.
